DETAILED ACTION

1. This communication is responsive to the 2nd preliminary amendment filed on 01/05/2002.

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-8, drawn to a method for identifying a momentary acoustic scene, classified in class 704, subclass 256.
 - II. Claims 1 and 10-12, drawn to a method for tuning a hearing aid, classified in class 381, subclass 60.
 - II. Claims 14-18, drawn to structures/structural elements of a hearing aid, classified in class 381, subclass 312.
3. Inventions I, II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP ' 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the invention I only drawn to a method for identifying a momentary acoustic scene for any acoustic system. The subcombination has separate utility such as tuning a hearing device or structures/structural elements of a hearing device.
4. Because these inventions are distinct for the reasons giving above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

Art Unit: 2643

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II, or III. Restriction for examination purposes as indicated is proper.

6. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Suhan Ni** whose telephone number is (703)-308-9322, and the number for fax machine is (703)-305-9508.
